**COPY MAILED**

AUG 01 2008

Applicant: Hempel  
Appl. No.: 10/578,196  
Filing Date: May 4, 2006  
Title: STATIC MIXING DEVICE, DISCHARGE DEVICE AND SULLPY CONTAINER  
COMPRISING SAID MIXING DEVICE, USE OF SAID MIXING DEVICE AND  
DISCHARGE METHOD  
Attorney Docket No.: 5836  
Pub. No.: 2007/0081420 A1  
Pub. Date: April 12, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on August 27, 2007, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains material errors on the front page of the publication wherein the benefit claim data is erroneously printed.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within **two months** from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The request for corrected publication, received on August 27, 2007, was not timely filed under 37 CFR 1.221(b).

Even if the request was timely filed the request would be dismissed as the benefit claim is not a material mistake as required by 37 CFR 1.221(b). The error in the benefit claim on the front page of the publication is not a material mistake as the benefit does not impact the 35 USC

---

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

102(e). The error in the benefit claim on the front page of the publication is not a material mistake because it does not affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

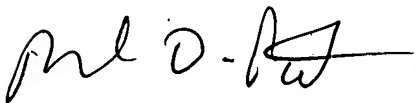

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:
